

March 9, 1964

To: Case Institute of Technology Student Senate.

From: Case Amateur Radio Club W8EDU.

SUBJECT: Change of budget for 1963-1964.

Gentlemen:

The Senate allocated \$ 477.50 to the Case Amateur Radio Club for the fiscal year 1963-1964. This money was to be used to purchase the following equipment.

1. HQ 170 receiver	\$ 432.50
2. Tools	20.00
3. QSL cards	25.00
total	\$ 477.50

However, the Club was able to save \$ 121.14 by buying the receiver at a discount price, thus leaving a ballance of \$ 121.14 from the Senate allotment.

With your permission, we would like to use this extra money to purchase the following items for the club.

1. Low power VHF transmitter	\$ 88.12
2. VHF antenna system	70.00
total	\$ 158.12

This would leave \$ 36.98, which the Club would pay towards this equipment out of earnings from dues paid by the members.

This new equipment is desperately needed to satisfy the technician and novice licensees in the Club. It would also provide effective local communications during times of emergency.

Respectfully,

William Myerson

William Myerson
